

Hand Print Wreath

1. Cut around circle template
2. Cut out the inside circle so you are left with a hole.
3. Trace hand of child on to coloured paper and cut out (red and green looks great). Depending on the size of child's hand, you will need 8-12 hand shapes. If you prefer, you can use the readymade handprint template below.
4. Glue handprints around wreath circle with fingers facing out, decorate with sequence (optional) and hang with ribbon.
