

## **Rice Bubble Slice Recipe**

### *Ingredients*

2 x packets of 180 gram marshmallow packets

60 grams butter

6 cups Rice Bubbles

### *Method*

1. Melt butter on low heat in a saucepan.
2. Add marshmallows to the melted butter.
3. Stir constantly until melted.
4. Pour marshmallow mixture over 6 cups of rice bubbles (that are in a separate bowl) and combine quickly.
5. Line a large rectangle plastic container (or slice tin) with baking paper. The size of the tin will determine how thick the slice is (it doesn't really matter to the end result).
6. Press the rice bubble mixture evenly into the lined container with a knife.
7. Refrigerate for about 30 minutes.
8. Using a sharp knife, cut into even sections and serve.
